Hello!

Thank you for choosing to use our member directory. In these pages you will find competent and qualified businesses to help you from concept to completion of your residential building or remodeling project. Membership in the Home Builders Association of the Grand Traverse Area, Inc. is a commitment that members take seriously, providing professional services to all of their clients.

Our Association is striving to become the #1 resource for the home building industry in Northern Michigan. Whether its answering questions about when to change a furnace filter, how to start the building process, or assisting individuals looking to enter the construction workforce, we want to be the first resource that you look to.

Please check our website, hbagta.com for the community events we hold each year. The Home EXPO on January 20th & 21st, 2018 / January 19th & 20th, 2019, the improved Parade of Remodeled and New Homes June 9th through the 17th, and our Annual Scholarship Dinner in the Fall.

The HBAGTA has directed its efforts to workforce development in 2018, partnering with TBA ISD-Career Tech Center, Northwestern Michigan College and other state organizations. This year's goal is to empower individuals of all ages by instituting an apprenticeship program for all facets of the building trades.

Our professional staff is available to answer any questions you may have, and can be reached at 231.946.2305. We look forward to hearing from you!

Warm regards,

Marcy Hurst

HOME BUILDERS
ASSOCIATION
GRAND TRAVERSE AREA, INC.

Purpose

The Home Builders Association of the Grand Traverse Area, Inc. chartered in 1970, is a professional trade association encompassing the Michigan counties of Antrim, Benzie, Grand Traverse, Kalkaska and Leelanau, whose members are licensed, where applicable, for the purpose of constructing quality housing, providing associated services and utilizing progressive technologies. The Home Builders Association of the Grand Traverse Area is an affiliate of the Michigan Association of Home Builders and the National Association of Home Builders

Mission

To be a high quality resource for building industry professionals, who provide outstanding service to our community.

Commited to a Higher Standard

Code of Ethics

- Our paramount responsibility is to our customers, our community and our country.
- Honesty is our business policy.
- High standards of health safety and sanitation shall be built into every home.
- Members shall deal fairly with their respective employees, subcontractors and suppliers.
- As members of a progressive industry, we encourage research to develop new materials, new building techniques, new building equipment and improved methods of home financing, to the end that every home purchaser may get the greatest value possible for every dollar spent.
- All sound legislative proposals affecting our industry and the people we serve shall have our informed and vigorous support.
- We hold inviolate the free enterprise system and the American way of life.
- We pledge our support to our associates, our local, state and national associations and all related industries concerned with the preservation of legitimate rights and freedoms.
- We assume these responsibilities freely and solemnly, mindful that they are part of our obligation as members of the Home Builders Association of the Grand Traverse Area, Inc.

Adopted with unanimous consent by the
Board of Directors of the Home Builders Association of the Grand Traverse Area, Inc. this 19th day of January, 1970.

IMPORTANT NOTICE REGARDING LICENSES & INSURANCE

It is the sole responsibility of any person contracting with any entity to ascertain that the entity has a current/valid license, when applicable, and current/valid policies of insurance, whether the same be Commercial Liability and/or Workers' Compensation.

The Home Builders Association of the Grand Traverse Area, Inc. makes no representation that any person, partnership, corporation or other entity listed in this directory has current and valid licensing and policies of insurance.

PROFESSIONAL DESIGNATION IN THE HOME BUILDING INDUSTRY

What Do Those Letters Mean?

Education is one of the core missions of the National Association of Home Builders, as well as the Home Builders Association of the Grand Traverse Area. Building industry professionals recognize these as premier repositories of housing knowledge and regularly turn to them for their continuing education needs. Through NAHB and its state and local affiliates, members receive the information and preparation that allows them to gain the competitive edge.

Listed below are some of the Designations that HBAGTA members have earned.

CAPS – Certified Aging in Place Specialist

The Certified Aging-in-Place Specialist (CAPS) designation program teaches the technical, business management, and customer service skills essential to competing in the fastest growing segment of the residential remodeling industry: home modifications for the aging-in-place. The NAHB Remodelers Council, in collaboration with the AARP, NAHB Research Center, and NAHB Seniors Housing Council, developed this program to provide comprehensive, practical, market-specific information about working with older and maturing adults to remodel their homes for aging-in-place.

CGP – Certified Green Professional

The National Association of Home Builders' Certified Green Professional™ designation recognizes builders, remodelers and other industry professionals who incorporate green building principles into homes— without driving up the cost of construction. Class work leading to the designation provides a solid background in green building methods, as well as the tools to reach consumers, from the organization leading the charge to provide market-driven green building solutions to the home building industry.

CGB – Certified Graduate Builder

This designation allows builders to grow their business by sharpening their business management skills and their understanding of today's home building industry.

CGR – Certified Graduate Remodeler

Certified Graduate Remodeler (CGR) is an exclusive professional designation designed to emphasize business management skills as the key to a professional remodeling operation.

GMB – Graduate Master Builder

The ultimate symbol of the building professional, the Graduate Master Builder (GMB) designation is for experienced veterans only. Before beginning the GMB designation process, the professional must have the CGB designation, the CGR designation, or the CGA designation with five years of building experience, or ten years of building experience and have completed three CGB/CGR/CGA courses. GMB courses are more advanced with in-depth instruction geared for experienced building professionals.

LEED AP-H

The United States Green Building Council created the Leadership in Energy and Environmental Design (LEED) program to certify buildings that adhere to their high standards for green design and construction, but those who administer the program are known as LEED Accredited Professionals (LEED AP).

MEMBERSHIP DIRECTORY ERRORS AND OMISSIONS POLICY

The 2018 Membership Directory of the Home Builders Association of the Grand Traverse Area, Inc. is supported solely by the businesses advertised in it and is distributed free of charge to the public. Every effort has been made to compile the information contained in the official directory as accurately as possible. However, errors do occur and should be reported in writing to the Home Builders Association of the Grand Traverse Area, Inc. office. Neither the Home Builders Association of the Grand Traverse Area, Inc. or its employees, agents or representatives are liable for any damages relating to errors or omissions which may occur in the advertising herein, or failing to appear.

Why Do Business with an HBAGTA Member?

HBAGTA members made the commitment to an organization that stresses being *committed to a higher standard*. An organization that accepts only builders and trade professionals who meet the criteria set in place. Members are licensed as required by the State of Michigan, hold proper insurance and maintain educational requirements. The community knows that they can depend on the HBA members as the true professionals in the industry!
