Workers' Compensation Reform

ALASKA CHAMBER
2019 PRIORITY*

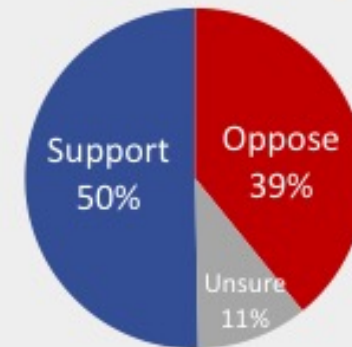

Workers' Compensation is a form of insurance providing wage replacement and medical benefits to employees injured in the course of employment. Alaska businesses pay some of the highest costs for Workers' Compensation insurance in the nation, and legislative reforms have been proposed to reduce those costs.

[Randomized statements]

The business community supports reforms to Workers' Compensation because the reforms will bring the cost of insurance in Alaska, more in line with the costs businesses incur in other states.

The healthcare community does not support reforms, saying the reforms will decrease the benefits for injured workers.

What is your opinion? Do you support or oppose workers' compensation reform?

ANWR Exploration & Production

ALASKA CHAMBER
2019 PRIORITY*

Do you support or oppose exploration and production of oil and gas in a portion of ANWR, that is the Arctic National Wildlife Refuge?

Prior to 2015 question read: "What is your opinion of oil and gas exploration in the Arctic National Wildlife Refuge, usually referred to as ANWR? Do you feel oil and gas exploration should or should not be allowed in that area?"

Final Thought

“...one key issue has consistently remained a priority for more than 20 years, both when the state was flush with cash from high oil prices and when it was struggling through economic recession: **the need for a sustainable fiscal plan** focused on Alaska’s future.”
