The WVAPA-PAC is a voluntary, by-partisan, unincorporated organization composed of physician assistants, physician assistant students and their spouses and is a separate segregated fund established by the West Virginia Association of Physician Assistants (WVAPA).

The WVAPA-PAC works throughout the year with elected officials to make sure they understand the many facets of our healthcare system. Our goal is to organize the physician assistant community into a powerful voice for quality healthcare in West Virginia. We seek to preserve the vital relationship between you and your patients by educating our legislators about issues important to our members.

The WVAPA-PAC contributions provide critical support for our endorsed candidates. Your contribution can make the difference between a pro-physician assistant/patient candidate winning or losing. Through the WVAPA-PAC you can join your colleagues from around the state and become one unified voice for medicine.
