The Generational Shift: Navigating a Way Forward

Bridging the Generational Gap is what this workshop is all about. There is a huge generational shift taking place in the world. Some find this exhilarating while others are left scratching their heads not only wondering what happened but also trying frantically to figure out how to stay relevant. Millennials and Gen Z have upset the status quo that has existed for over half a century and organizations need to learn a new way of recruitment, retention, and engagement. This workshop will help you understand how we got here and offer practical steps to move forward that you can apply in your own organization.

Presenter
Dr. Katherine Jeffery

She is a culture-shaping leader, coach, and visionary with over 20 years of experience developing and studying leaders in a variety of holistic environments. Her doctoral research focused on the Millennial generation, their view of leadership, and the ways it is impacting the workplace today.

VILLAGE OF GLEN ELLYN

Village Board Discusses Downtown Streetscape and Utility Project at Workshop

On Monday, March 4, the Village Board held a Workshop Meeting to continue further discussions on the downtown streetscape project. Nearly 50 residents and business owners attended the workshop.

The Village Board directed the Design team to retain angled parking on Main Street and Crescent Boulevard as well as shift to parallel parking on other blocks in the downtown. These parking options will allow for wider sidewalks, an increase in parkway trees and will enhance the overall walkability of the downtown.

The Board also discussed the estimated budget as well as sidewalk and crosswalk materials, preferring a stamped concrete design. These concepts will be further refined as the Design team finalizes the Phase I engineering plan.

For more information on the project, including the parking configuration options discussed, please visit the [March 4 agenda packet](#).

Next Steps

Based upon the direction the Board has given, Phase I Design Engineering will continue with the development of design concepts and exhibits, development of a preliminary construction schedule and continued public outreach. It is anticipated that Phase I will be complete this spring, with findings presented to the Village Board at a Workshop tentatively in May. Information will be forthcoming as future meeting dates are set.

Project Website

The Village is continuing to gather input through the [project's website](#). Residents, businesses and visitors can gather more information on the project and explore past and current ideas, plus share your own.

Employee Blue Dot Permit Parking Program Launched

A new initiative launched in March 2019, Blue Dot Permit Parking Program, provides additional long-term employee parking opportunities. Blue Dot permits allow employees of the Glen Ellyn downtown business district to park in designated areas at a reduced rate while they are at work. Blue Dot permit holders are exempt from posted time restrictions in the Blue Dot zones. The permit is \$50 per year and can be purchased at the Finance Department.

Permits are transferable to other employees of the same business, but may only be used while the employee is at their place of employment in downtown Glen Ellyn. In order to qualify for this reduced rate program proof of employment is required. This could be a paycheck stub, a letter from the owner of the business, or an employee ID. Permits cannot be issued until proof is provided by the employee.

An application can be downloaded [here](#) or contact the Cashiers Department at 630.547.5235.

Upcoming Meeting - Apex 400

The Final Planned Unit Development (PUD) plans for the Apex 400 Development will be considered at the Plan Commission meeting on Thursday, March 28, 7 p.m. at the Civic Center. The Village staff memo to the Plan Commission will be posted to the [agendas and minutes page](#) of the Village's website no later than Friday, March 22.

When the Plan Commission and Village Board consider the Final PUD plan, they will be reviewing if the Final PUD plans are in substantial conformance with the Preliminary PUD plans. The purpose of the meeting is not to reconsider the special use/zoning entitlements which were previously granted under the Preliminary Plan approval.

While there is no public hearing required for the Final PUD, a public meeting will be conducted and public comments and questions will still be welcomed at the meeting. The 3-minute time limit will apply.

For more information on the Apex 400 development, including a listing of frequently asked questions, please visit [here](#).
