

NEW Online Training Available for Hazardous Materials

The Minnesota Department of Transportation Office of Freight and Commercial Vehicle Operations has developed an online E-Learning system for Hazardous Materials (HM) training. It will teach the fundamental requirements for preparing HM for transportation as well as the basic requirements for transporting HM on public highways.

This type of training allows you to learn from the comfort of your home or place of work, you can learn at your own pace, it is available 24 hours a day from your computer, and it saves on time, travel and lodging.

There are 9 modules that comprise the HM E-Learning training, and they do not need to be taken in any specific order. The 9 modules are: Introduction; HAZMAT Table; Shipping Papers; Marking and Labeling; Placarding; Packaging; Security; Training; and Transportation by Highway.

This online HM training can be found at: <http://www.dot.state.mn.us/cvo/hazmatElearning/>.
