

CCIA Internship Position - Membership

Our Mission

To promote the growth of a responsible and legitimate cannabis industry and work for a favorable social, economic, and legal environment for our industry in the state of California.

The California Cannabis Industry Association was founded on the principle of strength in numbers. The thousands of California businesses involved in our state-legal cannabis industry represent a significant economic force. As the industry's only state trade association, CCIA works everyday to ensure our burgeoning business sector is represented in a professional and coordinated way at the state level.

Our Values

CCIA publicly advocated for the unique needs of the emerging cannabis industry and defends against threats to the legal market for cannabis-related products.

CCIA is the state's only industry-led organization engaging in legislative efforts to expand and further legitimize the legal cannabis market in California

CCIA endorses an open and democratic process that allows members to choose the board of directors through annual elections

CCIA hosts regular educational and networking events to strengthen the cannabis business community and foster important industry relationship.

We are looking for applicants who are interested in working hard, but most importantly dedicated to a cause that matters and in a place they can really make a difference in the policies shaping our country moving forward. The cannabis industry is just beginning to take off and we are only starting to shape the electoral map and the policies that will regulate this very new industry. Applicants should express interest in fundraising and helping CCIA grow their membership.
