### Promote your business to key decision makers!

This tournament supports youth and collegiate initiatives of the Alliance which in turn contribute to the skilled workforce of our region. These include:

**Partners In Education:** The program is designed to create linkages between the school system and area businesses to expand and enhance the educational opportunities for students.

**STEM Activities:** Offers the region's youth the opportunity to explore educational pathways that lead to careers in Science, Technology, Engineering and Math (STEM).

**Collegiate Initiatives:** Providing valuable awareness and skill building programs to local college students, experiential internships to aide companies in finding local qualified talent and recruitment of college students from outside the region.
