

Speakers Bureau

Professionals speak to local classrooms

Sign up to offer a classroom presentation on your occupation or topic of expertise as requested by high school instructors.

Many out-of-classroom experiences have been eliminated in area high schools due to budget shortfalls. Bridges offers the expertise of **local professionals** through **classroom presentations** on a variety of topics.

This valuable service offers high school instructors the ability to integrate real-world knowledge with classroom curriculum to motivate students to learn more.

Presentations are only 20-30 minutes each and offer a rewarding interaction with tomorrow's workforce.

Some schools are also able to electronically present speakers saving the presenter's travel time.

- To become a Bridges Speaker, contact Mary to receive a volunteer form. Please note that travel expenses to and from schools are the responsibility of the volunteer.
- To utilize a Bridges Speaker, visit BridgesConnection.org/speakers to review the available presentors and subjects. Then, contact the professional directly via email to arrange the presentation time/date.
