

2017-18 Career Academies

Bridges' Career Academies are integrated courses focusing on the knowledge and skills within a specific career field. Each course includes technical skills and employability skills with real-world business and industry experience. Career Academies are a primary "academic enrichment" component of the Bridges program, and when combined with "career exposure" and "career experiences" elements, strive to expand career awareness, exploration and preparation to ensure a viable workforce.

Supported in part by

In partnership with

Carl Perkins Consortium Funding, Growth Zone, Initiative Foundation, Otto Bremer Foundation, and the Region 5 Development Commission
