MESSAGE UPDATE FROM PAMELA SMITH-DROLL:

The transitioning into fall has begun with an occasional leaf changing color and dropping from the tree. Soon it will be apparent that the days are quickly getting shorter.

As you know we send out short surveys from time to time that helps the chamber to gauge and understand where we currently are with providing the right educational seminars and business programs to enhance and help grow your business.

The Chamber is currently planning our second Cleveland CAVs Reception and Game on Tuesday, November 13th at 7pm in Cleveland. The CAVs vs. Charlotte Hornets. We will provide more details next week.

I also wanted to mention that we have a few slots left for the Home Based Business (HBB) Pilot Program. The criteria for this program is a one or two person operation working from home. This could be a Home Based Bakery, a Home Based Hair Salon, Massage Therapist or any number of businesses that could possibly fit this type of program. The Erie County Chamber of Commerce has created this program for the entrepreneur(s) that have the desire to build a business and succeed with the marketing support, networking, exposure and educational opportunities that the Chamber has to offer. I learned many years ago in business you've got to be in the game to play! So take some time and really look at the wonderful opportunities that exist right here in Sandusky!

Understanding Finances: Two Part Series

As you've grown in your career, you've likely been given new financial responsibilities as part of your advancement. It's also just as probable that the last time you dealt with any "finance" was in high school or college accounting and that class convinced you that you never wanted to be a CPA. Gain a deeper understanding of the financial principles you need to do your job right at our two part seminar!

BBB Scam Alert: There Are No Free Government Grants

Offers for "free" grants to cover such expenses as tuition, home repairs or business expenses, etc., proliferate in print media, online and even in phone calls. They all have one thing in common: You're told your application for a grant is guaranteed and that you'll never have to pay the money back. Federal grants are not issued for personal use, but instead to help institutions and nonprofits carry out projects with a public purpose.
