Goodwill would like to thank the Sandusky Lions Club for their support of Amanda Nickelson, an employee in Goodwill's Data Entry Department. Amanda has a severe visual impairment and the Epson Document Magnifier enables her to read document text. The equipment makes her much more productive and makes her job easier. She now has the ability to see important documentation that requires her signature. Previously she relied on a magnifying glass which made it especially cumbersome to look at documents and type the data into a database. With this new the Epson Document Magnifier, it opens new and exciting opportunities for Amanda in future employment. She is excited and thankful about acquiring this new tool!

Preliminary plans show that Emerson Creek may include between 66-71 wind turbines placed on land leased from participating landowners that could produce approximately 300 MW of electricity. This is enough safe, pollution-free, home-grown energy to power up to 85,000 homes in our region.
