

Policy Regarding Political Candidates

**Approved by the RRC Board of Directors
October 17, 2017**

The Rochester Regional Chamber of Commerce does not endorse political candidates or allow candidates running for an elected position to become members of the Chamber.

Individuals who are candidates for political office may join the Chamber if they fit within the purview of the types of membership offered; i.e. business, non-profit organization or student and may only represent themselves at Chamber events through that membership option. All Chamber marketing and advertising material for said member would reflect the name of the organization they joined through, not "Candidate for..." or "Committee to Elect...."
