

BUILDING INDUSTRY TECHNOLOGY ACADEMY

A program promoted by the
California Homebuilding Foundation

YEAR FOUR

Capstone Residential and Commercial Construction

Students moves to a higher level of competency and are tasked to complete a capstone project which can include an independent research paper on a question or problem of their choice with the guidance of a faculty mentor, or participate in an internship. Some samples of previous projects include designing and building tiny houses for our veterans and homeless, playhouses which are donated to local children's non-profits, sheds for neighborhoods, doghouses for local rescue organizations, and special projects such as snack-shacks and benches for their campuses. While learning a trade, students are making our communities a better place to live.

Table of Contents

YEAR ONE SCOPE AND SEQUENCE

 UNIT 1: ORIENTATION AND SAFETY

 UNIT 2: WHAT IS A CAPSTONE PROJECT

 UNIT 3: PROJECT PITCH

 UNIT 4: PROJECT PRODUCT

 UNIT 5: PROJECT PORTFOLIO
