

Virginia Key - Located 2 miles East of Miami, this important barrier island features a unique ecosystem that needed support. With the help of over 170 amazing corporate volunteers and a strong project plan, teams helped revive and restore this amazing area opening it up to future educational platforms and bringing new life to the environment. Creating butterfly gardens, removing exotics and debris, and opening up pathways for student explorations was all in a hard days work – job well done!!

VIRGINIA KEY RESTORATION

Best Creative Event – Best Team Building
